## New Website on-line

We are very pleased to inform you that the new HSI website is finally on-line! The new site has been completely redesigned and greatly expanded. We hope that it will serve as an effective tool for the ministry as well as being a great resource for others. Over the next twelve months we will continue to complete the full site. Please check it out and tell us what you think!

## Algeria becomes Malta!

Last month you read about plans for Algeria that are happening now. Well those plans changed at the last minute. Difficulties with obtaining an Algerian visa redirected us to Malta. God is clearly at work. Coming to Malta will be a group of people from several North African nations. They will come to receive further training in honing their technical video skills and production skills. Upgrading equipment will be given and the impact will be far greater than had we gone to Algeria alone.

## China

This month an HSI staff member is in China researching the culture and music of a large minority group and attending their annual spring music festival. This research will help HSI and local partners, to facilitate several song writing workshops with these people that will result in indigenous, Bible based songs. It is hoped that these songs will be the first steps in bringing the Gospel to these largely ignored people group. Please pray for this strategic project and the challenges it presents.

## GCoMM & Mongolia

During May hard work will continue for the Global Consultation on Music and Mission taking place in Minneapolis, USA in July. The HSI team has an important role in helping to put on this strategic event. For more information see [www.gcommhome.org](http://www.gcommhome.org)

May will also see ongoing video editing of the three HSI visits to Mongolia. This will likely become the most comprehensive video documentary of an HSI project to date.

HSI exists to help ignite worship, especially in places where Christ followers are restricted, persecuted or unknown.

*"Every person should worship our awesome God in and awesome way that reflects their own culture."*
