Bulgaria

Last month an HSI engineer re-visited the studio in Bulgaria to do some upgrading of the facility. The Apple Mac computer was swapped over to a PC based platform and software was switched over as well. Better sound proofing was installed in the control and recording room and a headphone and talk back system were installed as well. To run many of the cables, a hole had to be drilled through a 0.67m / 27inch thick stone wall! Requests by churches to use this studio are coming in from surrounding countries.

New Team Members

Last month our new team members got caught up with HSI at a mini team retreat. We reviewed how HSI started, how the ministry has grown and where we have been. Our two new team members were here for just a few weeks to undergo orientation in joining OM and find housing, before returning to Siberia for some weeks to aid their transition to HSI.

Budget

While many groan at the prospect of writing up budgets, we get excited as we look to the next year and see how God is mapping out our work. We know that God is the ultimate provider of all our needs. Join with us in praying that he will raise funds to cover all our 2007 expenses.

Public Ministry

Over the next several weeks various members of the HSI team are involved in representing HSI at conferences and through teaching assignments on world music and culture. These opportunities allow us to share about the great things God is doing and for people to get involved in spreading the gospel worldwide.

Thank you for your ongoing prayers and support.

"Helping ignite culturally relevant worship, especially in places where Christ followers are restricted, persecuted or unknown."

HSI is an international ministry of [Operation Mobilisation www.om.org](http://www.om.org), housed at [Operation](#)
